

## **Coppertino Files Technical Report for the Sombrero Main/Nioc Project**

**Vancouver, Canada – May 27, 2024 – Coppertino Metals Inc. (“Coppertino” or the “Company”)** announces that it has filed a technical report on its Sombrero property titled Technical Report on the Sombrero Main/Nioc Project, Ayacucho Department, Peru (the “Technical Report”). The Technical Report was prepared in accordance with Canadian NI 43-101 – Standards of Disclosure for Mineral Projects and has an effective date of April 17, 2024. Concurrently with filing the Technical Report, the Company has filed its first annual information form (“AIF”) for the year ended December 31, 2023. The documents are available on SEDAR+ at [www.sedarplus.ca](http://www.sedarplus.ca) and on the Company’s website at [www.copperticometals.com](http://www.copperticometals.com).

Ivan Bebek, CEO and Chair of Coppertino, stated, “This independent Technical Report summarizes the historical work and drilling for the Main/Nioc area which is the key area within our Greater Sombrero property and our current focus. The Company is well financed with our recent completion of a \$19.4 million financing which exceeds the capital needed for the recommended drill program. Our AIF updates investors about our recent corporate developments and serves as a base disclosure document for our other plans.”

ON BEHALF OF THE BOARD OF DIRECTORS

**Ivan Bebek**

**About Coppertino**

Coppertino is a mineral exploration company focused on creating value for shareholders and stakeholders through careful project evaluation and exploration excellence in pursuit of the discovery of world-class copper-gold deposits in South America. The Company’s management and technical teams have a successful track record of raising capital, discovery and the monetization of exploration successes. The

Company, through its Peruvian subsidiary Sombrero Minerales S.A.C., is currently focused on the Main/Nioc area within the greater Sombrero Property in Peru, its flagship project. The Company continues to review additional premium projects in South America.

The Sombrero Project is a land package of approximately 102,000 hectares located in the north-western margins of the world-class Andahuaylas-Yauri trend in Peru. It consists of a number of prospective exploration targets characterized by copper-gold skarn and porphyry systems, and precious metal epithermal deposits. The Company's NI 43-101 technical report, with an effective date of April 17, 2024, and as filed on SEDAR+ on May 23, 2024, focuses on the Sombrero Main and Nioc target areas of the project

Coppernico is currently an unlisted public reporting issuer. The Company intends to seek a listing on a recognized stock exchange once it qualifies to do so. For more information, please visit [www.coppernicometals.com](http://www.coppernicometals.com).
