October 2024

Coppernico is a mineral exploration company focused on creating value for shareholders and stakeholders through project evaluation and exploration in pursuit of the discovery of world-class copper-gold deposits in South America.

Management and technical teams have a successful track record of raising capital, discovery and monetization of exploration successes. Coppernico is currently focused on the Sombrero Project in Peru.

Major Discovery Opportunities

Sombrero Project - Flagship

- Analogue to major mines in Peru
- Located on the western extension of one of Peru’s most prolific copper belts
- Highly underexplored - undergoing first ever drilling for copper and gold
